

Packaging Films

High quality packaging films designed to get the most out of your machinery

IMS offers a diverse selection of packaging films designed to meet a wide range of industry needs and applications

FFS Films

Tubular film in various sizes and formats for packaging a wide range of products across all industries

Features:

- Polyethylene (PE)
- Flat or gusseted
- Colored film and color printing options
- Can be laminated with foil or metallized

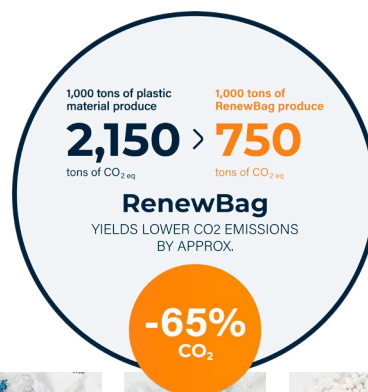

RenewBag: Lower Emissions, Higher Quality

Tubular film made from recycled materials, delivering the same product quality as 100% virgin polymers while reducing emissions

Features:

- Film scraps are collected, purified, and recycled into plastic resin pellets used to create new film rolls up to 8x
- Consist of up to 50% Premium Recycled Polymer (PRP)

Preformed Bags

Valve and open-mouth bags designed for convenient filling and sealing without the need for Form, Fill, Seal (FFS) machinery

Features:

- Polyethylene (PE)
- Flat or gusseted
- Colored film and color printing options
- Can be laminated with foil or metallized

Packaging Films

Technical Films

Premium laminated and labeling films with unique properties to best suit each packaged product

Laminated Film

Offers added protection from external elements to extend the shelf life of food products and other perishable goods

Features:

- Customized barrier features for added product protection
- Excellent sealability
- Ideal for packaging that requires high-quality printing

Labeling Film

High-quality, customizable labeling films made with premium materials for durability and longevity

Features:

- Designed to adhere to a variety of packaging surfaces
- Conforms to contours of squeezable packaging without cracking or peeling
- Transparency and gloss options with vibrant, high-quality printing

Stretch Hood Films

Crafted from premium materials for unparalleled memory and elasticity, ensuring consistent stretching over pallet loads without tearing

Features:

- Protection from dust, moisture, and UV rays
- Designed to cover a range of pallet sizes
- Colored printing for brand visibility

Packaging Films

Film Service Program

IMS films greatly surpass industry quality standards while maintaining competitive pricing. When you purchase film from IMS, we include scheduled service visits at a discounted rate.

Features:

- Inventory management to ensure a steady supply; IMS will arrange delivery based on consumption

Typical service visit schedule:

- During the first six months: A two-day visit once per month with one IMS technician
- After the first six months: A two-day visit once per quarter with one IMS technician

Placing a film order:

- Film orders can comprise a combination of tubular and stretch hood films
- IMS manages and tracks the shipments for the customer
